england s secret weapon explores the way hollywood used sherlock holmes in a series of fourteen films spanning the years of world war ii in europe from the hound of the baskervilles in 1939 to dressed to kill in 1946 basil rathbone s portrayal of holmes has influenced every actor who has since played him on film tv stage and radio yet the film series has until now been neglected in terms of detailed critical analysis the book looks at the films themselves in combination with their historical context and examines how the studio updated holmes and recruited him to fight the nazis steering a careful course between modernising the detective and making sure he was still recognisable as the old holmes in clothes locations and behaviour

the princeton review us roadmap series gives students the help they need to make state tests a breeze the roadmap guides for new york students include practice tests designed to simulate the real exams as closely as possible the roadmap series works as a year long companion to earning higher grades as well as passing high stakes exams

grunden s analysis of this fundamental flaw in the japanese war effort seamlessly weaves together science technology and military history to provide an entirely unique look at a crucial but understudied aspect of world war ii comparing the science and weapons programs of all the major combatants he demonstrates that japan s failure was nearly inevitable given its paucity of strategic

resources an inadequate industrial base the absence of effective centralized management to coordinate research military hostility toward civilian scientists and bitter interservice rivalries in the end japan could not overcome these obstacles and thus failed to make the transition to the kind of big science it needed to ward off its enemies and dominate the far east book jacket
