long out of print volume by a prominent soviet mathematician presents a thorough examination of the theory of functions of a real variable intended for advanced undergraduates and graduate students of mathematics 1955 and 1960 editions

in confessions of a real wild child nature s voice speaks through ten interconnected stories weaving together the lives of ordinary people and the extraordinary landscapes they inhabit from the verdant forests of the pacific northwest to the arid deserts of the american southwest each tale is a testament to the powerful bond between humans and the earth in the great pig fiasco a young man discovers the fact of friends who are not trustworthy one fall night follows as a tribute to a young man s need to remain true to his word no matter what these stories rich with environmental themes and lyrical prose invite readers to reconnect with the natural world and reflect on the delicate balance between progress and preservation confessions of a real wild child is a celebration of our planet s beauty and a call to honor and protect the environments that shape our lives and a hail to the grand exotic lives of adventure we could have once lived

abstract one of the obstacles to be overcome in natural language understanding is the existence of lexical gaps that is words or word senses which are not in the lexicon of the system no lexicon whether hand coded or derived from an on line dictionary can ever be complete in the sense of having entries for every word encountered in every syntactic category and with every semantic sense with which it may be used
