this book is a sociolinguistic examination of the russian speech
of the american third wave the migration from the soviet union
which began in the early 1970s under the policy of détente within
the framework of bilingualism and language contact studies it
examines developments in emigré russian with reference to the
late cold war period which shaped them and the post soviet era of
today the book addresses matters of interest not only to
russianists but to linguists of various theoretical persuasions

and to sociologists anthropologists and cultural historians working on a range of related topics no knowledge of the russian language is assumed on the part of the reader and all linguistics examples are presented in standard transliteration and fully explicated

over the past few decades the book series linguistische arbeiten linguistic studies comprising over 500 volumes has made a significant contribution to the development of linguistic theory both in germany and internationally the series will continue to deliver new impulses for research and maintain the central insight of linguistics that progress can only be made in acquiring new knowledge about human languages both synchronically and diachronically by closely combining empirical and theoretical analyses to this end we invite submission of high quality linguistic studies from all the central areas of general linguistics and the linguistics of individual languages which address topical questions discuss new data and advance the development of linguistic theory

after the end of the second world war businessmen and economists throughout the world feared that the american postwar inflationary boom would end in a serious slump the slump took a long time to come and when it did appear in 1949 it was both mild and short lived in its mildness and brevity it foreshadowed the american business recessions since that time and indeed may foreshadow the end of the business cycle as it has been known in the past this book presents the first full scale study of the 1948 49 recession in the united states making it the focal point of a detailed analytical account of american business fluctuations from the end of the second world war until the beginning of the korean war the main part of the book is prefaced by a review of fluctuations from 1945 to 1967 and of the business cycle theory which places the postwar events in perspective of special importance are the studies of the ending in early 1948 of the period of re stocking and re equipment of the impact of the changed farm situation in this deflationary atmosphere and use of modern consumption theory to explain the changes in household spending after the war and during the recession dr blyth has drawn extensively upon the results of modern economic research and has woven the econometric findings and the historical narrative together with a theoretical analysis he conclusively rejects the theory that recent u s business cycles are the result

of any largely self perpetuating fluctuation in investment in stocks instead he draws attention to the persistent destabilizing roles of changes in defense expenditure and of changes in monetary policy inventory investment performs the largely passive role of aggravating these changes the book first published in 1969 will be of value not only to specialists in business cycle studies but to economists and others concerned with the problems of stability and growth in the international economy as well as to economic historians
